## Pharmacy Intern

+359896619480 @ lora.manova@gmail.com Sofia, Bulgaria

### SUMMARY

A curious, ambitious and willing to learn 3rd year Pharmacy student at Sofia university St. Kliment Ohridski. Employed at the Department of Chemical and Pharmaceutical engineering for 2 years. Skilled in conducting lab experiments, processing data and presenting outcomes.

### EXPERIENCE

#### Department of Chemical and Pharmaceutical Engineering

Sofia University

02/2021 - Ongoing Sofia

The department has contracts with numerous successful companies and is focused on developing and perfecting specific formulations in the chemical, pharmaceutical, cosmetic and food industries.

- Driving the implementation of 4 projects in the fields of fast moving consumer goods (FMCG), pharmaceuticals and fundamental research
- Working successfully with diverse organizations in the private and public sectors - e.g. Unilever and the Bulgarian Ministry of Education and Science
- Presented research findings at 2 pharmaceutical conferences, perfecting my presentation skills
- Clocked 1100+ hours of lab work; attained significant experience in performing chemical lab work
- Processing experimental data, preparing calculations and organising all results in Powerpoint presentations, graphs and tables
- Developed strong teamwork and communications skills through partnering successfully with a number of colleagues of varying seniority

### EDUCATION

#### Pharmacy student (3rd year)

Sofia University St. Kliment Ohridski

10/2020 - Ongoing Sofia

#### American College of Sofia

American and Bulgarian diploma

09/2015 - 06/2020 Sofia

- Graduated with honors

### SKILLS & STRENGTHS

Optical Microscope

HPLC

Sonicator

Labsolutions

SigmaPlot

Excel

Powerpoint

Teamwork

Communication

Presentation

Planning and Time Management

### LANGUAGES

Bulgarian

Native

English

Fluent

### PROJECTS DELIVERED

Studying the effect of lipid formulations on a drug's solubility in the organism via in vitro gastro intestinal model.

Developing and perfecting a laundry detergent's formula

Making a propolis based nasal spray and shampoo

Observing rotation phases of oil droplets in an emulsion and studying their physicochemical factors

### PASSIONS

Scientific innovations

Improving people's health

My Golden Retriever

Professional Dancing

- Had multiple TV and concert appearances
- Participated in 2 world dance competitions and ranked 2nd in modern dance couples in Barcelona, Spain
- Trained young dancers
